

Start-up Corner

The EAN Start-Up Corner is a new area that EAN has created to give start-up companies in the neurological field a platform to better showcase themselves. We are looking for companies which are innovative with its product, technology, or business model.

To qualify as start-up, the following criteria must be fulfilled.

The submitting company:

- has not been founded more than five years ago.
- has less than 50 employees.
- must not receive substantial financial resources from an existing company in the field of neurology.
- must not have had a booth at an EAN Congress prior to applying for a start-up stand.

Special start-up fee

EAN supports the participation of start-ups with a special fee of EURO 2,500 for the below start-up package.

Benefits

- A start-up booth includes the following:
 - o Backwall (*graphics and design need to be provided by the start-up company*)
 - o 1 counter with a barstool
 - o 1 brochure stand
 - o 1 power socket
 - o Daily cleaning and waste disposal
- Every start-up company receives 2 exhibitor badges with access to the exhibition and 1 transferable badge with access to the EAN congress programme.

How to apply for the EAN start-up corner

Interested to find out more? The process is simple: tell us about your start-up and why you would like to be part of the EAN Start-up corner. Send an email to industry@ean.org to schedule a call.

Please note that a company is only allowed to participate 3 times in the EAN start-up area.
