PROGRAMME:

MOVEMENT DISORDERS

Carlo Colosimo, Rome Italy: Pharmacological treatment of Parkinson Disease
David Burn, Newcastle upon Tyne, United Kingdom: Atypical parkinsonism (MSA & PSP)
Peter Moore, Liverpool, United Kingdom: General aspects of treatment with botulinum toxin and the commonest neurological indications (torticollis, blepharospasm, etc.)
Carlo Colosimo, Rome, Italy: Hemifacial spasm: clinical features and treatment
David Burn, Newcastle upon Tyne, United Kingdom: Dementia with Lewy bodies
Peter Moore, Liverpool, United Kingdom: Treatment of spasticity

EPILEPSY

Peter Wolf, Bielefeld, Germany: Actualities in epilepsy
Bettina Schmidt, Berlin, Germany: Psychiatric aspects of epilepsy

NEUROETHICS

Franz Gerstenbrand, Vienna, Austria: Neuroethics: introductory statements

STROKE

Pavel Kalvach, Prague, Czech Republic: Ischemic penumbra and diaschisis. Similarities and differences
Laszlo Csiba, Debrecen, Hungary: Cerebrovascular ultrasound. Present and future applications
Rudiger von Kummer, Dresden, Germany: Neuroradiological diagnostics in acute stroke
Pavel Kalvach, Prague, Czech Republic: Reperfusion in stroke – when wanted, when not

Laszlo Csiba, Debrecen, Hungary: Stroke risk factors in Eastern and Western Europe
Rudiger von Kummer, Dresden, Germany: Neuroradiological interventions in pending stroke

Chisinau

From the final report:

An international TC in neurology, joint venture of the EFNS and the Moldovan Society of Neurologists took place in Chisinau. This neurological forum, carried out with support of the EFNS was the first one of its kind in Moldova.

One hundred and fifty neurologists from both Moldova and other countries (Romania 22, Belarus 8, Ukraine 7, Czech Republic 2) took part in this course. Nine professors from Austria, Czech Republic, Germany, Hungary and United Kingdom composed the faculty.

The course was accommodated in the Palace of Republic of Moldova, a remarkable place for holding international conferences. The participants also took advantage of the social program and got acquainted with traditions of the Moldovan people. Foreign participants were pleasantly surprised by a visit paid to one of the biggest and outstanding underground wineries in Europe - Milestii Mici.

EFNS appreciated the participation of Movement Disorders Society (MDS-E) who nominated and sponsored 3 speakers.

The Soros Foundation from Moldova and local pharmaceutical companies also contributed to the event.
