

## Satellite symposium at the 6<sup>th</sup> EAN congress

Assessing disease activity for an accurate  
prognosis of patients with MS

Saturday, 23<sup>rd</sup> May 2020, 13:45–14:45 CEST | Room Amsterdam

Chair: *Bruno Brochet – Bordeaux, France*

Interpreting clinical data: differential diagnosis,  
application of McDonald criteria

*Celia Oreja-Guevara – Madrid, Spain*

Interpreting MRI: application of McDonald criteria,  
risk stratification

*Mara Rocca – Milan, Italy*

Interpreting MS signs and symptoms: cognition,  
depression, fatigue

*Iris-Katharina Penner – Duesseldorf, Germany*

## Satellite sessions at the 6<sup>th</sup> EAN congress

What is personalised medicine in MS today?

Sunday, 24<sup>th</sup> May 2020, 09:30–10:00 CEST | Room Helsinki

Gathering core clinical data sets: MRI, cognition,  
McDonald 2017 criteria and diagnosis

*Hans-Peter Hartung – Duesseldorf, Germany*

Sunday, 24<sup>th</sup> May 2020, 16:15–16:45 CEST | Room Helsinki

Risk stratification: holistic evaluation of  
prognostic markers to assess risk of progression  
in patients with MS

*Giancarlo Comi – Milan, Italy*

Monday, 25<sup>th</sup> May 2020, 09:30–10:00 CEST | Room Helsinki

Risk stratification: what can biomarkers tell us with  
regard to progression and long-term outcome risks?

*Eric Thouvenot – Nimes, France*
