Whipsmart Media, Ireland

Agenda

Day 1 Starting the AD journey: identifying a potential patient

Presentation by Niels Prins

Day 2 Continuing the AD journey: providing a diagnosis

Presentations by Wiesje van der Flier, Jort Vijverberg

Day 3 Overseeing the AD journey: managing care

Presentation by Jort Vijverberg

About the artist

The painting was created by Juliana Yin, an artist who developed Alzheimer’s disease. The artwork was kindly provided as part of a project led by Elderwise™ (Seattle, WA, USA). Elderwise™ enables adults living with memory loss to creatively and meaningfully engage with each other through art, discussion, movement and shared meals; <http://www.elderwise.org/>.

Juliana was born in China in April, 1939. She moved to the USA with her husband and had three children, of whom she is most proud. She worked for many years for the Internal Revenue Service and the Marriott Hotel in Chicago, IL. She currently lives in Seattle, WA, and has been attending Elderwise™ enrichment programmes since 2017, where she discovered a love of singing, creative movement and watercolour painting.
