*For documentation purposes all meetings will be recorded.

Allocation Process:

Each Company joining the allocation process will be contacted via Email to access station #1 (exhibition) of the Allocation Process, even if you have not booked an exhibition space. All stations are equipped with a waiting room and access will be granted as soon as the room is free.

After the allocation at each station, EAN will send you an Email with a confirmation request, which needs to be accepted by answering the Email and including your company signature. After finalisation you will be directed to the next station if already available.

During all these steps you will be welcomed at each station by an EAN staff, who will support you in the whole process.

Each company will receive a dedicated timeslot for station #1 (exhibition) by Email. This time is intended to give you a reference on when you will be able to join the allocation process. However, this provided time schedule is an estimation and we recommend staying on-call via Email to contact you if required..
