Abstracts

Consequences of migraine: from episodic migraine to medication overuse

In these 20-minute sessions by expert speakers in the field, this symposium will explore key issues from across the spectrum of migraine severity, covering diagnostic challenges, consequences for patients and the developing treatment landscape. Each session will conclude with a live audience Q&A, in which we strongly encourage you to participate.

The European Accreditation Committee in CME (EACIC) has granted 5.5 CME credits for each session in this symposium. To obtain your CME credits, fill out the evaluation form on www.eacic.eu. The event code to access the EACIC CME evaluation and accreditation system is 62805901.
