

Cesare Fieschi, Italy

## **Cesare Fieschi, Italy**

1999-2001

### **Personal Remarks**

I have enthusiastically adhered to the new-born EFNS and participated in the first event in Berlin. My subsequent involvement consisted in the organization of the second congress held in Rome, that was fully successful, and in participation at the management committee in the years 1999-2001,

I also worked on establishing the link between the EFNS and the Neuromediterranean Society based in Marseille (Neuromediterranée), strictly collaborating with Prof. Jes Olesen as President of our Society.

Thank you for asking my participation to the Archive of the EFNS, I am proud to be part of its history!
