9th REGIONAL TEACHING COURSE IN SUB-SAHARAN AFRICA
OUAGADOUGOU, BURKINA FASO - NOVEMBER 8-11, 2017

Dear Participants of the 2017 EAN Regional Teaching Course,

It is our pleasure welcoming you together with our local hosts, Prof. Jean Kabore, and our co-organizing Societies to this 9th Regional Teaching Course in Sub-Saharan Africa.

This series of courses that started in 2008 has proven to be an extremely successful forum where African physicians meet with colleagues from all over the world to share knowledge, discuss important neurological problems and the ways to overcome these.

We hope that we can thereby contribute to improve the patients’ care in Africa and help African neurologists and other medical doctors’ integration in the worldwide community of physicians.

A special welcome goes to the African Academy of Neurology who will be our partner by excellence in the future organisation of these Regional Teaching Courses.

EAN – European Academy of Neurology – is proud to orchestrate this unique event in Africa, an example of academic cooperation and commitment.

We strongly engage in helping this important academic development. I thank our team, particularly Prof. Erich Schmutzhard and Ms. Eveline Sipido for their efforts to organise this meeting and thank all our co-organisers for their engagement.

I wish all the participants a fruitful and rewarding meeting and an enjoyable time with new colleagues.

Günter Deuschl
PRESIDENT
EUROPEAN ACADEMY OF NEUROLOGY
